The Wifi Interface Connection For The iPhone®, iPod touch® or iPad®

Step 1
Go to the Wi-Fi Networks screen
by touching the Settings icon

Step 2
Touch the Wi-Fi on the
Settings page
Note: If Wi-Fi is not currently
turned on, touch the Wi-Fi line

Step 3
The Spa Control network link will
appear as BWGSpa_XXXXXX in
the 'Choose a Network' list
Note: XXXXXX are the last 6

at the top right of the list.

characters in the MAC address
of the module

It will take several seconds for the wireless connection to the spa to be available. To speed up this process, a static IP address can be assigned to the iPhone®, iPod touch® or iPad® for the point-to-network:

Step 1

On the Wi-Fi Networks page, touch the blue right-arrow next to the BWGSpa_XXXXXX entry to display the address setup page

Step 2

Touch the Static button under IP Address

Step 3

Enter 169.254.1.2 for the IP Address

Step 4

Enter 255.255.0.0 for the Subnet Mask

Step 5

Enter 169.254.1.1 for the Router

Step 6

Touch the 'Wi-Fi Networks' button at the top of the page to exit the screen

This address setup only has to be done once.
