Spa Covers and Hot Tub Covers - Color

Each spa cover swatch has been closely matched to the actual vinyl coloring. However, due to variations in computer monitors, it is impossible to guarantee exact color matching. If you are replacing your spa cover or hot tub cover, please note that years of exposure to the environment can cause severe color deterioration. [Protectant 303](#) helps prolong the life of spa covers and hot tub covers. Hot tub covers last longer when you use any protectant. Hot tub covers last longest when you use 303 Protectant.

Statistically, the most common hot tub cover colors sold at Mountain Tops Spa Covers are ash and green. If you are not sure what color to choose, just click one for now so you can see the color and spa together. You can always come back here if you would like to try on a new color. Take your time and be sure you know what you want and get what you deserve.

Please feel free to contact us if you have any questions about your next spa cover order. Please proceed with the color and measurements to ask us a question.
