LED BUBBLER

The all **NEW for 2015 SAVI LED BUBBLER** provides lighted bubbling for water spouts in beach entries, sun shelves, steps and fountains. They can be a stand-alone feature or used in combination with our popular line of color and dimmable white light water features or with the SAVI LED underwater lights for pools and spas.

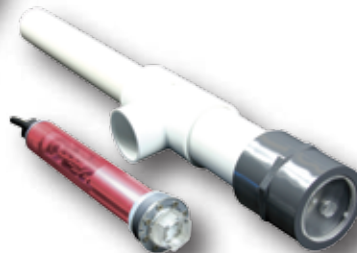

They feature a **flush finish** and are available in the P-Series, H-Series and the **NEW J-Series** product programs.

Just like SAVI underwater lights, the Bubbler LED cartridges are field serviceable and interchangeable with other white or color SAVI LED light cartridges.
